## **BEST AVAILABLE IMAGES**

Defective images within this document are accurate representations of the original documents submitted by the applicant.

Defects in the images include but are not limited to the items checked:

BLACK BORDERS

IMAGE CUT OFF AT TOP, BOTTOM OR SIDES

FADED TEXT OR DRAWING

BLURRED OR ILLEGIBLE TEXT OR DRAWING

SKEWED/SLANTED IMAGES

COLOR OR BLACK AND WHITE PHOTOGRAPHS

GRAY SCALE DOCUMENTS

LINES OR MARKS ON ORIGINAL DOCUMENT

REFERENCE(S) OR EXHIBIT(S) SUBMITTED ARE POOR QUALITY

## IMAGES ARE BEST AVAILABLE COPY.

OTHER:

As rescanning these documents will not correct the image problems checked, please do not report these problems to the IFW Image Problem Mailbox.

Office Action Summary		09/870,026	YANG ET AL.			
	Office Action Summary	Examiner	Art Unit			
	T. MAN INO DATE of this communication on	Tan V Mai	2124			
The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply						
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.  - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).  Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2124

- 1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- Claims 1-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ito.
   Rejection grounds continue to be those set forth in the previous office action
   (Paper No. 2, paragraph 4).
- 3. Claims 1, 4-12, and 14-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nillesen.

Rejection grounds continue to be those set forth in the previous office action (Paper No. 2, paragraph 5).

4. Applicant's arguments filed on 04-22-04 have been fully considered but they are not persuasive.

Applicant, in their remarks, argues that: (1) "Ito actually **teaches away from**<u>discarding a bit</u>", (2) "[m]oreover, Applicants <u>traverse</u> the assertion of the Office

Action that the multiplication and accumulation functions described in Ito are suggestive

of or motivative an <u>IIR fliter</u>" and (3) "Nillesen <u>similarly</u> teaches neither an <u>IIR filter</u> nor

<u>discarding at least one bit from a feedback signal</u>" (emphasis added).

With respect to the arguments, the examiner carefully reviews all the applied references and the claimed invention.

Art Unit: 2124

First, the examiner believes that the **output of shifter** (8) <u>is equivalent to</u> the claimed "discard at least one bit from the feedback signal", e.g., see col. 4, lines 5-6 "when the **data is to be shifted right by a single bit in the shifter**,...". The examiner notes that the independent claim [1] <u>broadly recites</u> "..., wherein the filter use **a feedback signal** to modify ..., **wherein the feedback signal** comprises a sequence of bits, **comprising discard at least one bit from the feedback signal**". Therefore, the **output of shifter** (8) <u>is equivalent to</u> the claimed "discard at least one bit from the feedback signal". It is noted that Ito does disclose the **output of shifter** (8) <u>coupled to other elements [for performing additional function(s)] before feedback to the adder (5); however, the claim read on Ito.</u>

Second, the "<u>multiplication and accumulation functions</u>" is well known the filter art, e.g., see Satoshi (US Pat. 5,944,775, Figs. 1-7; Abstract, "[a] <u>sum-of-products</u> <u>arithmetic unit includes</u>..., <u>a multiplier, an adder,...</u>; col. 1, lines 8-11, "[t]he present invention relates to a sum-of-products arithmetic unit. More specifically, the present invention relates to a <u>sum-of-products arithmetic unit</u> which functions as an **IIR** filter (**recursive** filter)").

Third, Nillesen discloses (1) **"recursive** first order digital video signal **filter"** (e.g., see Title and Abstract) and (2) the result of "truncation777 circuit (37)" is equivalent to the claimed "discard at least one bit from the feedback signal".

Therefore, the rejections are still proper.

Art Unit: 2124

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Cited references is art of interest.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tan V. Mai whose telephone number is (703) 305-9761. The examiner can normally be reached on Tue-Fri from 6:30am to 5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kakali Chaki, can be reached on (703) 305-9662. The fax phone numbers for the organization where this application or proceeding is assigned are:
